

DIRECT-TO- CONSUMER

PREMIER DIRECT-TO-CONSUMER/E-COMMERCE FULFILLMENT PARTNERS

In the past few years, e-commerce has taken the world by storm. Companies are being created based on the profitability, ease of start-up, ability to market, and willingness of customers to subscribe to a product they need. This is even simpler if the e-commerce companies depend on a 3PL to handle the direct-to-consumer fulfillment and warehousing of the products.

The reputation of e-commerce companies depends on timeliness and the quality of the product in the order. As a result, 3PLs are gaining trust to handle the operations “behind the curtain.”

Burriss Logistics offers direct-to-consumer fulfillment out of several geographically desirable warehouses, enabling us to ship to consumers within two days. We can handle your inventory of all products, including frozen, refrigerated, and shipping/packaging supplies to support your program.

E-commerce is about marketing, customer retention, and delivering a product that meets your customers’ expectations. You can focus on what you do best and trust us with the rest.

ONE PARTNER. MANY SOLUTIONS.®
