

ONEBURRIS

ONEBURRIS BUSINESS DEVELOPMENT TEAM

ONEBURRIS is a way of thinking, communicating, and operating that supports the entrepreneurial spirit of the Burris Logistics brand lines with enterprise-level sales, business development, and marketing support. The ONEBURRIS mantra is 'team before self,' fostering collaboration to promote full brand line capability and increase customer engagement.

"We have assembled a complete shipper and retailer solution with three brands under Burris Logistics. We call this unity of brands ONEBURRIS; what began as an internal cultural change is now how we operate our business daily. Our partners know that we offer a multitude of solutions that can be adapted to serve their unique needs." — Donnie Burris

ONEBURRIS is our way of utilizing our physical assets and human power without brand or geographical constraints. Sometimes you need an expert to focus specifically on the issue you seek to solve, but more often you need the versatility to bundle solutions from a trusted partner, every step of the way.

Burris Logistics and **Honor Foods** are rich in temperature-controlled warehousing and distribution capability for a multitude of manufacturing and foodservice partners. **Trinity Logistics** connects the links of your supply chain with brokered freight across multiple modes and lanes.
